EXHIBITORS RESPONSIBILITY FOR CARE OF PROJECT ANIMALS

By registering an animal to bring to the Montcalm County Fair, each exhibitor is agreeing to the following:

PROJECT ANIMAL CERTIFICATION:

1. We certify that we will not have administered to the animal(s), nor has it received, any substance not approved by the Federal Food and Drug Administration (FDA), the United States Department of Agriculture (USDA) and/or the County the exhibition is being held. This includes, but is not limited to, diuretics, steroids, repartitioning agents, tranquilizers and analgesics. We also certify that, with respect to any drug, chemical or feed additive approved by the FDA and/or USDA for slaughter animals that no illegal use of approved chemical/compounds has taken place and that the applicable withdrawal period as recognized by the FDA has expired prior to shipping out of market livestock on any and all approved chemicals/compounds administered.
2. We acknowledge and accept the fact that all animals entered at the County Fair may be subject to blood, urine and tissue tests, and that the Fair reserves the right to disqualify any animals, either live or slaughtered, found in violation of the use of drugs, chemicals or feed additives as described above and in the County Fair Book and policy brochure. Disqualification will result in the placing(s) of the animal in question being voided; the forfeiture of any and all ribbons/trophies/special awards earned with the animal(s); the assessment of a fine against the total premiums due equal in the amount to the premiums

earned with the animal(s); voiding of the sale(s) if the animal(s) has been sold in the Livestock Sale.

3. We will allow the designated tester/veterinarian to draw any and all samples deemed appropriate from our animal(s).
4. We will indemnify and hold harmless the Fair and all of its sponsors and assisting organizations and their employees and agents, against all legal or other proceedings in connection with said testing procedures. We will indemnify and hold harmless the Fair and its sponsors and assisting organizations against all claims of injury to the animal and any damage or injury to any person or property caused by the animal.

PROJECT ANIMAL CARE:

1. We, the above signed exhibitor and parent/legal guardian, have read, acknowledge, accept and will abide by all the animal care, housing and maintenance rules as set forth in the County Fair Book, the appropriate species rule books.
2. We acknowledge that the above-mentioned animal(s) have been under my daily care since the initial tagging or project registration date.
3. Proper care (feeding, handling, etc.) of project animals and maintenance (cleanliness, neatness, etc.) of assigned fair housing is the responsibility of the exhibitor. Project animals must be cared for in accordance with commonly accepted feeding/handling practices, and the animal's pen/stall cleaned and bedded as necessary on a daily basis. Proper care and maintenance of all animals and their assigned housing area will be monitored by the appropriate species Superintendent of the Fair.

EXHIBITOR CODE OF CONDUCT:

1. We agree to conduct ourselves with honesty, integrity and good sportsmanship. We will treat all fair and livestock show management personnel, fair officials, judges, and exhibitors with courtesy, cooperation and respect and shall not direct any abusive or threatening conduct toward them. Furthermore, we will not direct criticism or interference with fair and livestock show management personnel, fair officials, judges, and exhibitors in conducting the activities associated with the event. We understand that any conduct that is contrary to these items will be brought before the Fair Board for review and may result in the disqualification of individual people and animal(s) from the activities associated with the County Fair.

ETHICAL AND HUMANE TREATMENT OF ANIMALS:

1. We acknowledge that inhumane fitting, showing and/or handling practices or devices shall not be used. Furthermore, surgery, injection, or application of foreign material under and/or into the flesh of an animal to physiologically or physically change the natural contour or conformation of the animal is illegal. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, insertion of foreign material in the animal, or other such practices are not acceptable and will be prohibited. Violation of the above-mentioned items could result in the disqualification of the animal and/or exhibitor.
2. We acknowledge and accept the fact that the Superintendent for a given animal species and the County Fairboard Livestock personnel may authorize the examination of a given animal for identification purposes and/or health related concerns in our absence, including obtaining the temperature of the animal in question.

By signing the fair registration form, the exhibitor certifies all animal projects will be drug free by Federal Food and Drug Administration standards. The exhibitor agrees to follow all withdrawal periods for animal health products and substances used, to practice good animal husbandry, and to ethically and humanely care for the project animal(s). The exhibitor acknowledges and accepts the fact that the project animal(s) may be subject to drug and residue testing. Upon a positive confirmation, forfeiture of all prize money, sale and/or market value, premiums and trophies will be the penalty. The parents or guardians assume equal responsibility for following these and other prescribed guidelines set by the fair for these projects.

EXHIBITORS RESPONSIBILITY FOR CARE AND FEEDING DURING FAIR

Red Flag Rule: "All animals must be kept clean, fed, and have access to clean, fresh water throughout the day. The first time your pen(s) is/are not kept cleaned and/or there is/are no food or clean water the youth will receive a warning. They will have until the next check to remedy the situation – the expectation is that youth will be checking their projects every three hours (starting at 9 a.m., 12 Noon, 3 p.m., 6 p.m. and 9 p.m.). The second time the pen will be red tagged and the youth will not be eligible to exhibit that species in the following years at fair.

1. Only the superintendents of each species can red tag pens (for example the Sheep Superintendent can tag sheep pens). Warnings and red tags will be placed on pen cards.
2. Primary responsibility for grooming animals for show is that of the exhibitor. Parent/guardian and other exhibitors may assist.
3. Exhibitors are responsible for proper feeding and care of their animals, including keeping stalls, pens, and animals clean and neat at all times, until they are trucked out on Sunday, the last day of fair.
4. 4. Final stall and pen clean-up, including washing swine pens, MUST be completed by 1:00 p.m. Sunday, the last day of fair.
5. Exhibitors will furnish their own feed and bedding.
6. All exhibitors MUST display pen cards with all information, readable by the public, above each animal exhibited. These pen cards are available on the fair website.

8. HERDSMANSHIP: All livestock and small animal exhibitors are automatically entered into the Herdsmanship contest as a club. It is vital that the 4-H program put their best foot forward and demonstrates the care that we give to our animals and the hard work that we as a 4-H program put into our projects as well as how we work as a team. This is not an individual contest. Club Herdsmanship will be judged during the entire fair week and will be checked for the cleanliness of the animals and stalls, neatness of area outside their pen, attractiveness and creativity of the Club's display area. The main cleaning of each species area should be done by 9:00 a.m. and all club signs must be easy to identify, readable, and have eye appeal. Each exhibitor's name card should be neatly displayed for each of their pens. Herdsmanship will be divided into Large Club (4 or more exhibits) and Small Club (3 or less exhibits). If the number of animals warrants splitting or combining the class, the Superintendents may do so after weigh-in.

2204 Open – Age 13 – 19

OBEDIENCE CLASSES

1. The "A" class is for new exhibitor and new dog who are competing at the level for the first year.
2. The "B" class is for exhibitors and/or dogs who have competed in the "A" class previously at that level.
3. "Experienced" means showing your dog in a prior 4-H show, AKC show, fun match or trail.
4. If you have then you must show as "B" class.
5. A qualifying score is a minimum score of 170 in any of the above competitions.
6. Exhibitors show with a 6 foot leash and choke collar.
7. An exhibitor/dog team can compete at the next higher level once they have received, one (1) qualifying score at current level, and they MUST compete at the next level once they receive three (3) qualifying scores at current level.

Example: "Exhibitor Joe", has two dogs, "Dog Ann" and "Dog Ben". Exhibitor Joe and Dog Ann have shown together for several years and have received 3 qualifying scores in Pre-Novice. Exhibitor Joe and Dog Ben have never shown together. Therefore, Exhibitor Joe signs "Dog Ann" up for Novice A because he has the three scores in Pre-Novice and has never shown at the Novice level. Exhibitor Joe signs "Dog Ben" up for Pre-Novice B because he himself has shown in Pre-Novice A (with Dog Ann) in the past, but does not have any qualifying scores with "Dog Ben" at the Pre-Novice level.

1. Pre-Novice A - new dog and new handler in first year of the 4-H dog project.
2. Pre-Novice B - experienced handler and experienced dog, or experienced handler and new dog, or new handler and experienced dog.
3. Beginner Novice A - Handler and dog have at least 1 qualifying score in a pre-novice class but who has not won any other AKC obedience titles. The dog cannot have competed in a novice obedience class. This class will have a 10 minute walk through without dogs and is designed to help transition handlers and dogs into off-leash work as well as introducing Rally Obedience signs to the Team. The "heel" exercise will be done by using rally signs to instruct the handler what to do in their heel pattern. The "figure 8" exercise will be done the same as Pre-Novice class on leash. The "Sit for Exam" is done on a 6' leash with the dog examined by the judge with only a touch to the head. The handler returns to the dog upon command and then walking the perimeter of the ring. The leash will remain attached to the dog, although will be dropped/placed on the ground before the exercise begins. The "recall" exercise will be performed with the leash off and kept by the handler, either holding the leach in either hand, placing in a pocket, or draping it around the neck. Upon the judge's command, the handler will give the dog the command and/or signal to stay in the sit position, the handler then walks forward out approximately 25 feet to a location as directed by the judge, turns and faces the dog. On the judge's signal, the handler will command or signal the dog to come. No finish will be required of the dog by the handler. After the judge's order "exercise finish" the handler will reattach the leash to the dog's collar.
4. Beginner Novice B – Experience handler and experienced dog who has competed in Beginner Novice A. Dogs that have not won any other AKC obedience titles may compete. Description is above with the same exercise being done in Beginning Novice A.
